About our Plans to Expand the Belville Wastewater Treatment Plant

Neighborhood Meeting
Monday, March 2, 5 pm – 7 pm
Leland Community Center

Please attend a neighborhood meeting on Monday, March 2 from 5 pm to 7 pm at the Leland Community Center to learn about the planned expansion of our Belville wastewater treatment plant, located at 9911 Chappell Loop Road. The expansion will help us accommodate the explosive growth that has occurred in this part of the county. NBSD staff and project engineers will present our plans for the expansion and will be available to answer any questions you may have.

The planned wastewater treatment plant expansion will offer the District's customers:

- 1 Innovative technology to increase energy efficiency
- 2 Greatly reduced noise
- 3 Greatly reduced odor
- 4 **Better rates** – the expansion will cost less than half of the expected cost of Brunswick County's planned wastewater treatment plant expansion
- 5 Expanded capacity at 1.6 million gallons

For more information about the meeting, call the District at (910) 371-9949.
